

## Smarter Hardware for Smarter MSPs

### What We Do

Carbon Systems streamlines hardware procurement and deployment for MSPs. We deliver enterprise-grade devices, preloaded and ready for client use, no bloat, no babysitting.

### Why MSPs Love Us

- No more time wasted on manual imaging and setup
- No more hardware sourcing headaches and supplier runarounds
- No more supporting random, low-quality devices
- No more lack of consistency across client deployments
- Direct Tier-3 support from real experts
- White-label and customization options available
